## **Product Datasheet**

## PlexTaq® 5x qPCR Multiplex Master Mix 4000

Product Name PlexTag® 5x qPCR Multiplex Master Mix

Catalog Number #4000

Description

**All in One.** All the flexibility you need in a 5x Master Mix for multiplexing applications. **NOW LYO READY!** 

- Sensitive. More free volume. 5x concentration allows more volume for target specific primers and probes (multiplexing).
- **Robust. Uniform amplification.** Up to 30 target multiplexing in real-time (customer feedback).
- Fast TTR. No extraction needed. Reliable results with crude samples without extraction step, like blood.
- Specific. No false amplification. Engineered Taq DNA polymerase more stable at room temperature.
  Aptamer-based hot-start prevents false amplification and provides a fast-start function.
- Lyo ready. Contains all necessary excipients needed for freeze-drying. Can be used for lyophilization. Enables RT storage and shipping once dried.

For research use and further manufacturing. Designed and manufactured under ISO13485

Tested Applications End-Point, Real-Time, Lyophilized

Brand myPOLS Biotec

Storage -20°C

Content S pack: 1 x 400 µl PlexTaq® 5x qPCR Multiplex Master Mix

L pack: 2 x 1000  $\mu$ l PlexTaq® 5x qPCR Multiplex Master Mix
