## Anti-Listeria Biotin V4207

| Product<br>Name        | Anti-Listeria Biotin                                                                                                                                            |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog<br>Number      | V4207                                                                                                                                                           |
| Species/Host           | Rabbit                                                                                                                                                          |
| Tested<br>Applications | ELISA                                                                                                                                                           |
| Brand                  | ViroStat                                                                                                                                                        |
| Form/Appear            | Purified from antiserum and covalently coupled with the<br>N-Hydroxysuccinimide ester of biotin under mild conditions to<br>give a high degree of substitution. |
| Concentration 5 mg/ml  |                                                                                                                                                                 |
| Storage                | Short term (<6 months): 2-8°C Long term: -20°C                                                                                                                  |
| Isotype                | IgG                                                                                                                                                             |
| Clonality              | Polyclonal                                                                                                                                                      |
| Purity                 | ≥95%                                                                                                                                                            |
| Buffer                 | 0.01M Phosphate Buffered Saline, pH 7.2, containing 0.1% sodium azide                                                                                           |
| Cross<br>Reactivity    | Antiserum has not been absorbed & may react with related microorganisms                                                                                         |
| Specificity            | Whole cells                                                                                                                                                     |
| Shelf Life             | Two years from date of manufacture                                                                                                                              |
