

Support and tools for COVID-19 diagnostics

We are committed to providing IVD test manufacturers with highest performance and quality antibodies, antigens and other raw materials for timely support of the SARS-CoV-2 outbreak.

Medix Biochemica SARS-CoV-2 related products

Recombinant SARS-CoV-2 antigens:

Nucleocapsid (N) <ul style="list-style-type: none">• 100 µg, 710081• 1 mg, 710082• 5 mg, 710083	Spike RBD 1 (aa 331-524) <ul style="list-style-type: none">• 100 µg, 710093• 1 mg, 710094• 5 mg, 710095
Spike S1 <ul style="list-style-type: none">• 100 µg, 710090• 1 mg, 710091• 5 mg, 710092	Spike RBD 2 (aa 319-541) <ul style="list-style-type: none">• 100 µg, 710096• 1 mg, 710097• 5 mg, 710098

EastCoast Bio products

- Anti-SARS-CoV-2 Nucleocapsid monoclonal antibodies
- Anti-SARS-CoV-2 Spike 1 protein monoclonal antibodies
- Recombinant SARS-CoV-2 Spike 1 and Nucleocapsid antigens

Please visit eastcoastbio.com to find more information about these products.

Lee Biosolutions products

We support Covid-19 related test development by providing native control proteins and biological specimens, including:

- Control material proteins for IgG, IgM and IgA
- Rheumatoid Factor concentrate used in interference studies
- Biological products including
 - COVID-19 cross-reactivity serum/plasma panel
 - COVID-19 confirmed positive & negative serum/plasma samples
 - COVID-19 confirmed positive & negative nasopharyngeal swabs
 - Nasal fluid and sputum samples collected prior to November 2019

Please visit www.leebio.com to find more information about these products.

Contract Manufacturing Service

We can offer large-scale production capacity of monoclonal antibodies through our contract manufacturing service.

Please stay in touch with your local business contact or contact us by email:
